

Alberta Wetland Specialist (Edmonton, Alberta – Job ID: 2017-030)

Ecofor Consulting Ltd. is a natural and cultural heritage resource management company with a team of over 50 professional and technical employees. Ecofor has offices in Fort St. James, Fort St. John, Prince George, Calgary, Edmonton and Whitehorse. We provide expertise in a broad range of disciplines including fisheries and aquatics, wildlife, vegetation and riparian, soils and terrain, hydrology, reclamation and enhancement, environmental monitoring, environmental assessment, contaminated sites, land use planning, archaeology, traditional land use, traditional ecological knowledge, heritage consultation, and socio-economic assessment.

Ecofor is currently seeking an **Alberta Wetland Specialist** to join our team in Edmonton, Alberta.

Key Responsibilities:

- Conduct wetland assessments and permitting under the new Alberta Wetland Policy for transportation and oil and gas industry projects;
- Assist Ecofor teams with water quality, fish, birds, plants, wetlands, etc.;
- Environmental monitoring on construction projects (including turbidity monitoring, fish salvage, soil characterization, spill preparedness, erosion and sediment control, noxious weeds, etc.);
- Contribute to environmental impact assessments, mitigation plans and proposals; and,
- Assist in preparing and obtaining regulatory approvals for a wide variety of projects.

The key to this position is capability and willingness to contribute to a **variety** of disciplines.

Required Competencies:

- Have a comprehensive understanding of, and experience with, the Alberta Wetland Policy;
- Experience in preparing Wetland Assessment and Impact Reports (WAIR) and performing field work using the ABWRET-A Tool;
- Must possess a valid driver's license;
- Ability and desire to work in a strong safety culture; and,
- Experience and ability to travel and work in remote settings under adverse conditions.

Desired Qualifications:

- Membership as a PBIOL and knowledge of the provincial and federal environmental assessment regulatory environment in Alberta;
- Experience and qualifications as a QAES conducting watercourse assessments and recommending mitigation measures for in-stream works;
- Excellent communication skills, attention to detail and ability to produce professional quality deliverables on time and on budget;
- Desire to grow business and work closely (both in a field lead and support role) with other environmental professionals/ discipline leads; and,
- Certification in ATV/UTV operations and other industrial safety tickets.

Please send your resume and cover letter to: careers@ecofor.ca by **December 15, 2017**. Please include the Job ID number you are applying for in your cover letter/ resume. We wish to thank everyone for their interest in Ecofor; however, only those selected for an interview will be contacted.
