

GIS Manager

(Prince George, B.C. Job ID: 2018-014)

Ecofor Consulting Ltd. is a natural and cultural heritage resource management company with a team of over 50 professional and technical employees. Ecofor has offices in Fort St. James, Fort St. John, Prince George, Calgary, Edmonton and Whitehorse. We provide expertise in a broad range of disciplines including fisheries and aquatics, wildlife, vegetation and riparian, soils and terrain, hydrology, reclamation and enhancement, environmental monitoring, environmental assessment, contaminated sites, land use planning, archaeology, traditional land use, traditional ecological knowledge, heritage consultation, and socio-economic assessment.

Ecofor is currently seeking a GIS Manager to join our team in Prince George, BC.

Key Responsibilities:

- Leading the GIS team, which includes work allocation, mentorship, professional development and problem resolution.
- Planning and developing project priorities, objectives and schedules.
- Performing GIS spatial modeling, analysis and mapping for all departments.
- Coordinating maintenance of GIS systems (trouble shooting) and processes.
- Facilitating sharing of information across departments within Ecofor and outside of the company.
- Liaising with clients, prepare budgets and cost estimates; and,
- Participate in Ecofor's Health, Safety and Environmental Program.

Required Qualifications:

- Successful completion of a diploma in Geographic Information Systems supplemented by a minimum 5 years of related experience.
- Considerable knowledge of GIS, cartography, spatial analysis and geoprocessing experience using ArcGIS Suite, MapInfo, Vertical Mapper, ET Tools and ArcGIS Xtools Pro.
- Experience with GPS devices, Ipad setup for field use, data translations using FME, OziExplorer, Basecamp and Global Mapper.
- Experience designing and carrying out analytical GIS procedures and configuring database programs.
- Must be highly organized, detail-oriented and able to establish priorities and allocate resources in a fast-paced environment.
- Experience supervising and training employees, including organizing, prioritizing and scheduling work assignments.
- Excellent writing and communication skills, desire to grow business, and work closely with other discipline leads and external clients; and,
- Able to work in a strong safety culture and must possess a valid driver's license.

Desired Qualifications:

- IT experience (acquisition, installation, implementation and maintenance of all IT services, programs, peripherals and support).
