

Archaeological Field Technician

Ecofor Consulting Ltd. is a natural and cultural heritage resource management company with a team of over 50 professional and technical employees. Ecofor has offices in Fort St. James, Fort St. John, Prince George, Calgary, Edmonton, Whitehorse and Nova Scotia. We provide expertise in a broad range of disciplines including fisheries and aquatics, wildlife, vegetation and riparian, soils and terrain, hydrology, reclamation and enhancement, environmental monitoring, environmental assessment, contaminated sites, land use planning, archaeology, traditional land use, traditional ecological knowledge, heritage consultation, and socio-economic assessment.

Ecofor is currently seeking **Archaeological Field Technicians** to join our team in Fort St. John and Prince George, BC.

Key Responsibilities:

- Assist in the identification of areas of archaeological potential and archaeological sites.
- Assist in data collection and data management.
- Assist field reconnaissance and archaeological impact assessments for oil and gas, forestry, transportation and other industries.
- Assist in Systematic Data Recovery (excavation) for the Fort St. John location; and,
- Participate in Ecofor's Health, Safety and Environmental Program.

Required Qualifications:

- Pursuing or have obtained an undergraduate degree in Archaeology or Anthropology.
- Excellent writing and communication skills, desire to grow business, and work closely with other environmental professionals, environmental discipline leads, and First Nations.
- Willing to travel for work and stay in remote accommodations for extended periods of time.
- Physical ability to do strenuous fieldwork.
- Able to work in a strong safety culture; and,
- Must possess a valid driver's licence.

Desired Qualifications:

- Experience in Cultural Resource Management.
- Familiarity with the provincial heritage assessment regulatory environment in BC.
- Familiarity with Oil and Gas regulations in BC.
- Familiarity with mapping, pedestrian survey, subsurface testing, excavation, data collection, field note taking and laboratory experience desired.
- Excavation experience would be an asset for the Fort St. John location.
- Familiarity with using handheld GPS units, mapping software, Microsoft Office Suite, and Adobe software; and,
- Certification in ATV and/or UTV operations.

Job ID Numbers:

- 2018-027 Archaeological Field Technician – Fort St. John, BC.
- 2018-028 Archaeological Field Technician – Prince George, BC.
