

Biologist

(Alberta - Job Id: 2019-002)

Ecofor is currently seeking a Biologist to join our team in Alberta. This is a full-time position offering competitive wages, benefits and opportunities for professional growth and career development. The successful candidate(s) will have the flexibility to work from one of our established offices or from another location.

Ecofor Consulting Ltd. is a natural and cultural resource management company with a team of over 50 professional and technical employees. Ecofor has offices in Fort St. James, Fort St. John, Prince George, Terrace, Calgary, Whitehorse and Nova Scotia. We provide expertise in Natural and Cultural Resource Management (www.ecofor.ca).

Key Responsibilities:

- Primary role is to conduct wetland assessments and permitting under the new Alberta Wetland Policy for transportation and oil and gas industry projects
- Secondary function is to conduct field surveys and other work for water quality, fish, birds, plants, soils, and/or at-risk species
- Environmental monitoring on construction projects (including turbidity monitoring, fish salvage, soil characterization, spill preparedness, erosion and sediment control, noxious weeds, etc.)
- Contribute to environmental impact assessments, mitigation plans and proposals
- Promote a strong safety culture and become an active member of the Ecofor team
- Senior level responsibilities would include Field Coordination and Project Management

Skills and Qualifications:

- Professional Biologist status with the Alberta Society of Professional Biologists, or the BC College of Applied Biology, or another of the "PRO-10" wetland practitioner professions, for a minimum of 3 years
- Experience in preparing Wetland Assessment and Impact Reports (WAIR) and performing field work using the ABWRET-A Tool; qualified as a Qualified Wetland Science Practitioner (QWSP)
- Environmental monitoring and sediment and erosion control experience to protect fish habitat
- Knowledge of the provincial and federal environmental assessment regulatory environment
- Excellent writing and communication skills, desire to grow business, and work closely (both in a field lead and support role) with other environmental professionals, environmental discipline leads, and First Nations
- Ability to work independently with minimal supervision
- Excellent organizational, interpersonal, time management skills and physically fit
- Must possess a valid driver's license, and skill with snowmobiles, ATVs, and UTVs is an asset

Please send your resume and cover letter to: careers@ecofor.ca by **January 15, 2019**. Please include the **Job ID number(s) you are applying for in your cover letter/ resume**. We wish to thank everyone for their interest in Ecofor; however, only those selected for an interview will be contacted.
