

# GIS Technician

(Prince George, BC - Job Id: 2019-016)

Ecofor Consulting Ltd. is a natural and cultural resource management company with a team of over 50 professional and technical employees. Ecofor has offices in British Columbia, Alberta, Yukon Territory and Nova Scotia ([www.ecofor.ca](http://www.ecofor.ca)).

Are you looking to build a career in GIS? Ecofor is currently seeking a GIS Technician to join our team in Prince George, BC. This is an hourly position offering competitive wages and opportunities for professional growth and career development.

## Key Responsibilities:

- Perform GIS spatial modeling, analysis and mapping for all departments.
- Design and produce hardcopy maps and other cartographic representation products.
- Create, clean, convert, integrate and maintain spatial and non-spatial data.
- Conduct mapping research to resolve conflicting information and ensure the accuracy and completeness of the data.
- Demonstrate continuous enthusiasm about learning and pushing technical limits to improve operations, decrease turnaround times, streamline work processes, and work cooperatively and jointly to provide quality seamless product.
- Create and design databases, systems and applications.
- Reviewing with GIS manager work load and project status daily.
- Promote a strong safety culture and become an active member of the Ecofor team.

## Skills and Qualifications:

- Must have completed a diploma/certification in Geographic Information Systems.
- Considerable knowledge of GIS, cartography, spatial analysis and geoprocessing experience using ArcGIS Suite, MapInfo, Vertical Mapper, ET Tools and Xtools Pro.
- Experience with GPS devices and iPad setup for field use in conjunction with programs like OziExplorer, Basecamp, and Global Mapper.
- Proficient at designing and carrying out analytical GIS procedures and configuring database programs.
- Able to meet tight deadlines without sacrificing product quality.
- Must be highly organized and detail-oriented.
- Scripting and programming language skills using FME or Python would be an asset.
- Experience with ArcGIS Online platforms including Survey123 and ArcCollector would be an asset.
- A background or interest in IT (server maintenance, laptop set-up, technical support, etc.) would be an asset.
- Must possess a valid driver's license.
