

Environmental Monitor

(British Columbia or Alberta - Job Id: 2020-014)

Ecofor Consulting Ltd. is a natural and cultural resource management company with a team of over 60 professional and technical employees. We provide multi-disciplinary environmental consulting to clients who include private industry, government, and indigenous organizations and communities across Canada. We specialize in fisheries, wildlife, contaminated sites, cultural assessments, land use planning, forestry, environmental, and cultural monitoring.

Ecofor's reputation is one of integrity, sound work product and customer satisfaction. Safety is priority and our employees are our number one asset. We strive to promote from within, supporting professional development and career growth.

Are you looking for an opportunity to work with a dynamic team of professionals? Do you want a challenging, rewarding career that makes a positive impact on our local communities, or want to build skills and develop strong relationships?

If this interests you, Ecofor is currently seeking Environmental Monitors to join our team (location flexible).

This is a full-time position offering competitive wages, extended health benefits (medical/ dental/ vision) and vacation.

Key Responsibilities:

- Review, monitor, and implement environmental management plans.
- Develop, review and implement effective environmental mitigation measures.
- Conduct day to day environmental monitoring activities on construction projects.
- Review compliance and monitoring of stream crossing structure installation, water quality, fish salvage, and sediment and erosion control activities.
- Respond to environmental incidents.
- Work with Environmental Inspector/ Coordinator and construction teams to ensure compliance with environmental best practices, commitments, permits, laws and regulations and develop recommendations to resolve non-conformance.
- Daily reporting to Environmental Inspector/ Coordinator or Client of environmental monitoring efforts.
- Promote a strong safety culture and work collaboratively within Ecofor's corporate culture.

Skills and Qualifications:

- Degree (BSc.) or Technical Diploma in biology, forestry, agriculture or environmental studies.
- Accreditation (or eligibility) with the Association of BC Professional Foresters (RPF), BC College of Applied Biology (RPBio), Alberta Association of Professional Biologists (PBIol), Alberta or British Columbia Institute of Agrologists (PAg), or the Applied Science Technologists and Technicians of BC (ASTTBC).
- 1+ years of relevant experience as an environmental monitor of pipelines or similar construction activities, including sediment and erosion control measures.
- Knowledge of and experience with Federal, Provincial environmental best practices, laws and regulations.
- Ability to identify and manage issues within a construction environment.
- Ability to effectively communicate with agencies, clients, contractors and co-workers.
- Ability to work independently with minimal supervision.
- Excellent organizational, interpersonal and time management skills.

- Physically fit and able to travel and work in remote settings under adverse conditions.
- Must possess a valid driver's license.

Please send your resume and cover letter to careers@ecofor.ca by **March 27, 2020**. Please include the **Job ID number(s) you are applying for in your cover letter/ resume**. We wish to thank everyone for their interest in Ecofor; however, only those selected for an interview will be contacted.
