

Biologist

(British Columbia or Alberta - Job Id: 2020-015)

Ecofor Consulting Ltd. is a natural and cultural resource management company with a team of over 60 professional and technical employees. We provide multi-disciplinary environmental consulting to clients who include private industry, government, and indigenous organizations and communities across Canada. We specialize in fisheries, wildlife, contaminated sites, cultural assessments, land use planning, forestry, environmental, and cultural monitoring.

Ecofor's reputation is one of integrity, sound work product and customer satisfaction. Safety is priority and our employees are our number one asset. We strive to promote from within, supporting professional development and career growth.

Are you looking for an opportunity to work with a dynamic team of professionals? Do you want a challenging, rewarding career that makes a positive impact on our local communities, or want to build skills and develop strong relationships?

If this interests you, Ecofor is currently seeking Biologists to join our team (location flexible).

This is a full-time position offering competitive wages, extended health benefits (medical/ dental/ vision) and vacation.

Key Responsibilities:

- Leading and joining field teams in various disciplines (wildlife, birds, fish, aquatic habitat, water quality, vegetation, soils, wetlands, environmental monitoring, sediment and erosion control).
- Working with management and construction teams to ensure compliance with environmental best practices, commitments, permits, laws, regulations, and develop recommendations to resolve non-conformances.
- Contributing to environmental impact assessments, mitigation plans and proposals. Assist in preparing and obtaining regulatory approvals for a wide variety of projects such as transportation, renewable energy, mining, oil and gas, etc.
- Providing technical leadership within a team environment.
- Senior level responsibilities would include Field Coordination and Project Management.
- Promote a strong safety culture and work collaboratively within Ecofor's corporate culture.

Skills and Qualifications:

- Minimum B.Sc. in Biology or related discipline with two (2) years' experience.
- RPBio, PBIol and/or P.Ag. designation or eligibility. Additional professional designations, including CPESC, are an asset.
- Sound knowledge of field techniques and regulatory standards necessary for conducting a variety of field activities (i.e. wildlife assessments, bird surveys, water quality, fisheries inventories/salvage, environmental monitoring/inspection).
- Knowledge of the provincial and federal environmental assessment regulatory environment.
- Excellent organizational, interpersonal, time management skills and physically fit.
- Ability to work independently with minimal supervision.
- Excellent writing and communication skills, desire to grow business, and work closely (both in a field lead and support role) with other environmental professionals, environmental discipline leads, and First Nations.
- Proficient in the operation of field equipment.
- Must possess a valid driver's license.

Please send your resume and cover letter to careers@ecofof.ca by **March 27, 2020**. Please include the **Job ID number(s) you are applying for in your cover letter/ resume**. We wish to thank everyone for their interest in Ecofor; however, only those selected for an interview will be contacted.
